LE PLATEAU DE DURFORT-VIVENS

2020

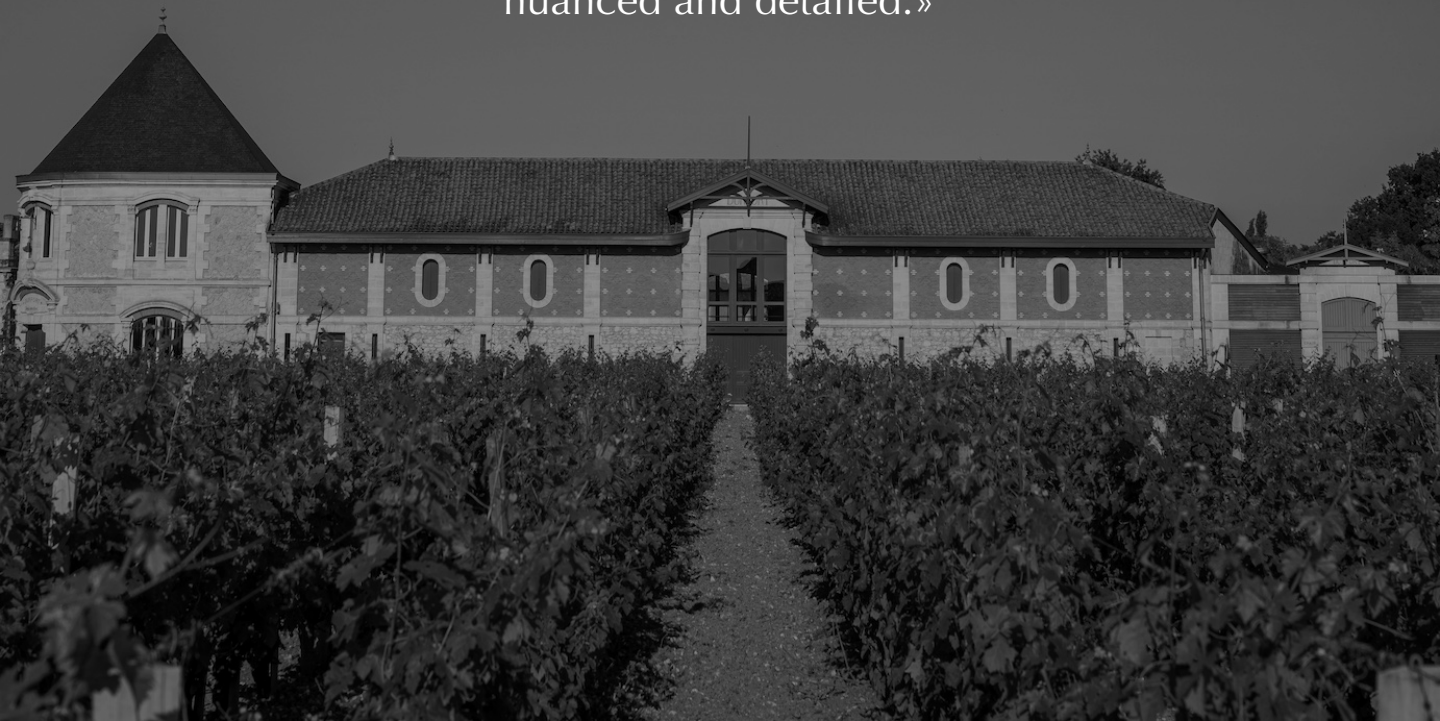

VINOUS, ANTONIO GALLONI, 94 pts

« Is a powerful, explosive wine endowed with tremendous energy and depth. Deep and vibrant to the core, the 2020 positively pulses with energy from the very first taste. »

VINBLADET, PETER WINDING, 94 pts

DECANTER, GEORGINA HINDLE, 93 pts

« Perfumed on the nose, aromatic and open - beguiling. Juicy and plush with a nice balance of vibrant, well-integrated tannins. Nicely structured with width and density, all with bite and tang. Lean but nuanced and detailed.»

Biodynamic wines and vineyard

The wines are certified organic and biodynamic (Demeter).

Since the implementation of these practices, the maturity of the grapes (fruits and polyphenols) has unified, allowing the wines to preserve their bright bouquet and tannic smoothness.

Ageing in barrels and amphorae

Terracotta jars, and hence the control of oxygen and sulphur inputs, allow the preservation of flavours and bring a lot of delicacy to the wines.

Barrels harmonise the wine structure.

Precision viticulture & intra-plot treatment

The technical team has identified a real diversity of distinct kinds of soil in the vineyard.

Thanks to the latest technologies, tools for measuring have been put in place to better understand this diversity and to provide appropriate care of each portion of plot.

New single-plot cuvées

The nuance of each terroir fully blossoms thanks to precision viticulture and vinification. A trilogy of single-plot wines has thus been born, highlighting our terroirs specificities.

These « Parcelles » embody each of the characteristics of our Grand Vin : Les Plantes for freshness, Le Plateau for power and Le Hameau for elegance.
